

FREE LIVE MASTERCLASS • FOR CREATORS STUCK \$0-\$10K/MO

THE TRUST SCORE METHOD

Build a self-running YouTube empire that pays \$10k-\$30k/month.
Without showing your face, being '*creative*', or guessing what the algorithm wants.

WELCOME

If your channel is stuck, you're in the right room

01

Your videos die

200 to 2,000 views, and never break out.

02

You stay off camera

And every guru treats that like a death sentence.

03

You've seen 30+ gurus

Same five tips about thumbnails and hooks. You're burned out.

Type OPERATOR in the chat if you're tired of being told to 'just be consistent'.

TODAY

Three things, in 90 minutes

The hidden signal

The number YouTube actually scores your channel on.

The 3 levers

What moves that score. The same 3 behind 1.5B views a month.

\$10k to \$30k/mo

How operators turn the levers into real income, with no face.

Stay to the end

I'm closing with a live Q&A and the one move you can make this week. The people who stay get it. The people who leave early don't.

MY STORY

I didn't start with 36 channels. I started stuck.

THE CREATOR

- Posts and hopes
- Tries to 'be creative'
- Chases the algorithm
- Grinds one channel
- Watches videos die at a few hundred views

THE OPERATOR

- Feeds the score on purpose
- Runs a repeatable format
- Knows what the algorithm rewards
- Runs a portfolio of channels
- Gets pushed, paid, and compounds

YouTube isn't grading your creativity. It's scoring your channel.

THE PROOF

This isn't theory. It's a system.

36+

channels operated

25B+

lifetime views

1.5-2B

views / month now

\$110K+

/mo AdSense at peak

Featured via Wedbush and The Tradable. But forget the press. Watch the system.

THE REAL PROBLEM

It's not a content problem. It's a score problem.

You post. It dies. So you post more. It still dies.

Everyone tells you to be consistent and be creative. That advice is exactly why you're stuck.

More uploads do nothing if your Trust Score is low. You're just feeding the algorithm more low-scored content.

30K VIEW JAIL

The plateau where the algorithm just stops pushing you. Most channels die here.

*Josh was stuck here. Fixed his score.
Monetized in 8 weeks.*

UNLEARN THIS

The 4 lies stuck creators believe

LIE: You need to be creative

You need to be an operator.

LIE: You need to show your face

Faceless is the default here.

LIE: More uploads fix it

Not if your score is low.

LIE: The algorithm is random

It's a scoring machine. It can be fed.

THE OTHER SIDE

Not one channel you grind. A portfolio.

Channels that run on a system.

That pay you while you sleep.

That don't need your face.

That compound across a network.

That's what an operator builds. Let's get into the mechanism.

THE MECHANISM

The Trust Score System

Creators try to beat the algorithm. Operators feed its scoring system on purpose, every upload, the same way.

WHAT MOVES THE SCORE

Three levers. That's the whole game.

LEVER 1

Engagement Velocity

How fast a video earns clicks and watch time in the first window.

LEVER 2

Retention Loops

Whether people keep watching, and watch the next one.

LEVER 3

Brand-Safe Delivery

Content the algorithm trusts to monetize and recommend.

LEVER 1 OF 3

Engagement Velocity

The algorithm decides fast. The first hour tells YouTube to push you or bury you.

HOW OPERATORS RUN IT

- Packaging built for the first click
- Seeding the first wave of watch time
- Title and thumbnail logic that earns the click without killing retention

PROOF

This is the lever that breaks 30k view jail. We fixed Josh's velocity setup. Monetized in 8 weeks.

LEVER 2 OF 3

Retention Loops

Velocity gets the push. Retention keeps it, and feeds the next video.

HOW OPERATORS RUN IT

- Structure each video so the next one is the obvious next click
- Build a catalog that chains
- Turn one viewer into a session, not a single view

PROOF

Loops compound across a portfolio.
That's how a network gets past 1.5 billion views a month.

LEVER 3 OF 3

Brand-Safe Delivery

This is the one that lets you do it faceless and without being 'creative'.

HOW OPERATORS RUN IT

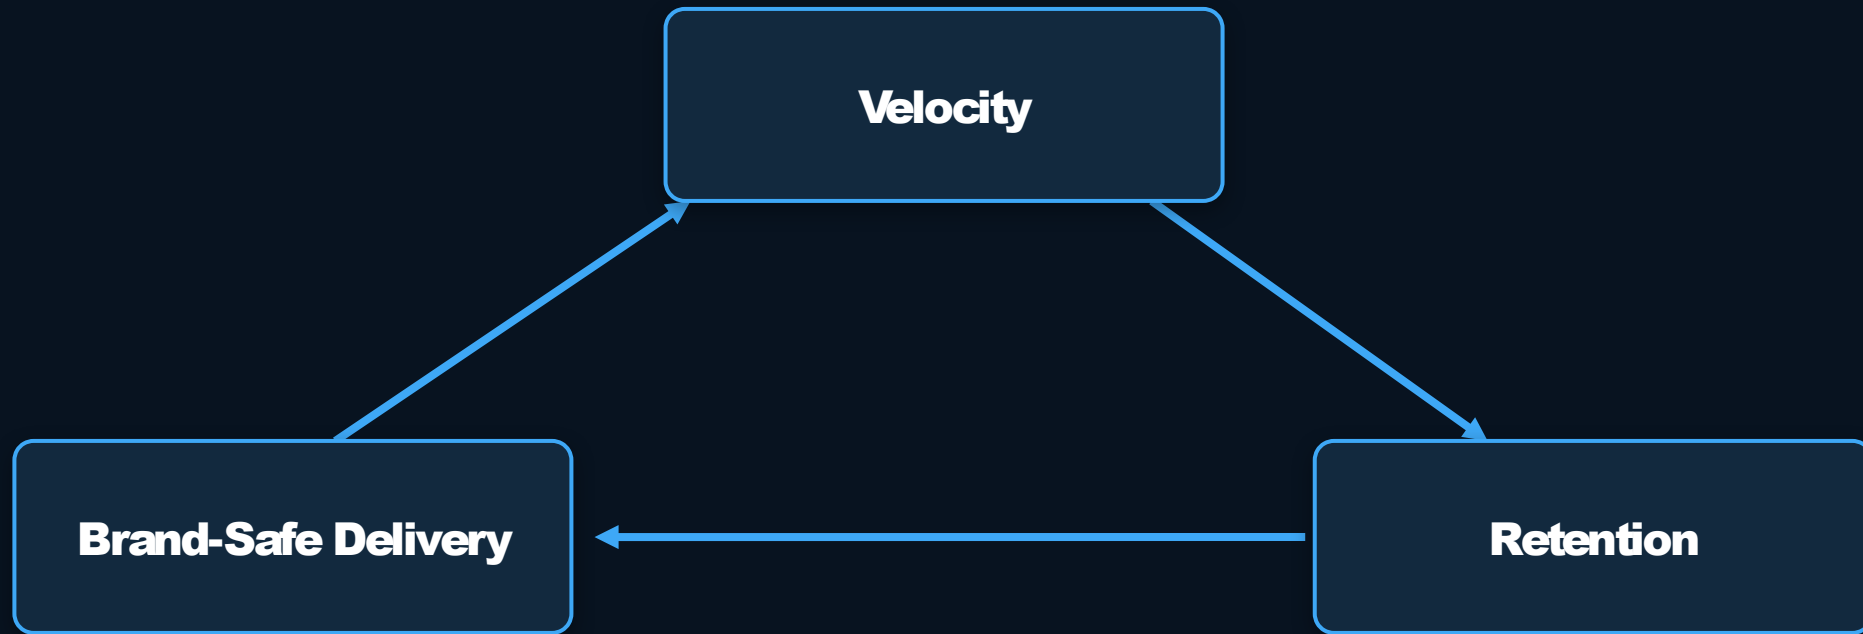

- A repeatable production format any operator or VA can run
- Scripted so it doesn't depend on one person being interesting
- Clean, consistent, no risk flags

PROOF

You operate the format. You don't perform. This is what makes it a system instead of a job.

HOW IT CONNECTS

The Operator Loop

Velocity feeds retention. Retention feeds your score. Your score feeds velocity again. That's the machine.

BE HONEST

Could you run this alone? Yes. Here's where people break it.

Velocity but no retention, so videos pop then die

One channel instead of a portfolio, so nothing compounds

Burning out trying to be the talent instead of the operator

A full year testing what we already know works across 36 channels

The system isn't secret anymore. The execution is where the year goes. Hold that thought.

THE RECEIPTS

Different lives. Same system.

REAL OPERATORS. REAL NUMBERS.

These aren't testimonials. They're scores fed correctly.

Adam

\$0 to \$10k/mo in 5 weeks

while working full-time

Alex

\$0 to \$10k/mo

full-time job and a family

Lewis

\$5k to \$35k/mo

scaled the network

Boris

\$20k/mo at 18

started young, ran the system

Jason

Left his sales job

after he hit \$10k/mo

Josh

Out of 30k view jail

monetized in 8 weeks

I KNOW YOU'VE BEEN BURNED

So look at the spread.

Different ages. Different starting points. One system.

That's not luck. That's a score being fed correctly, on purpose, every time.

WHERE WE ARE

You've got the whole mechanism now

The signal

Trust Score

The 3 levers

Velocity. Retention. Brand-safe delivery.

The loop

How they compound across a portfolio.

The mechanism is simple. The execution is the year.

What you don't have yet

Which packaging moves velocity in your niche. How to build loops without guessing. How to spin up channels two through ten without breaking what's working.

The mechanism is simple. The execution is where people lose 12 months alone.

SKIP THE YEAR OF TESTING

The Source of Wealth Mentorship

Not a course you watch and forget. Guided implementation of the exact Trust Score system, with my team on it with you.

WHAT YOU GET

The system, the team, and the tools

The Trust Score playbook

The full velocity, retention, and brand-safe system, step by step.

Coaching from me and my team

When your setup is off, someone who's done it 36 times fixes it in a day.

The operator toolset

Virlo.ai, Niche Finder, and Ninja Chat. Tools do the work, not your imagination.

The portfolio blueprint

Go from one channel to a network, so your income compounds.

The operator community

Build next to people doing it, not alone in your bedroom.

This isn't expensive. Doing it alone for a year is.

THE COST OF STAYING STUCK

- Another year of uploads the algorithm won't push
- 12 months of testing alone
- Watching others scale past you

THE RETURN

One channel at \$10k/month pays for this many times over.

We discuss the investment on the call.

HOW THIS WORKS

There's no buy button. It's application only.

01

Click the link

Below this presentation, right now.

02

Answer a few questions

So we know it's a fit. We take a limited number per cohort.

03

Book your call

We map your channel and show you exactly where your score is leaking. Including the investment.

The cohort cap is real. When it's full, applications close until the next one.

YOUR QUESTIONS

Q&A

BEFORE YOU ASK

The things you're already thinking

“I don't have time”

Alex did this with a job and a family. You operate a system a few hours a week.

“I'm not creative”

Good. It's a scoring engine you operate, not a creativity contest.

“I don't want to be on camera”

Perfect. Faceless is the default. You never show your face.

“I've been burned before”

That's why it's application only. We only take people it'll work for.

IN 90 MINUTES

You now know more than 99% of creators grinding right now

You learned the signal. The 3 levers. The loop.

The same system behind a network doing over 1.5 billion views a month.

Picture 6 months out. Not one channel you're babysitting. A portfolio that pays you, on a system, without your face.

YOUR NEXT MOVE

Apply. Book the call.

Worst case, you have a call and learn exactly where your channel's score is leaking.

APPLY NOW

The cohort cap is real. The link closes when it's full.

**Most creators will close this
and post another video the
algorithm won't push.**

A few of you will become operators.

Be one of the few
